## SUMMARY

Recent software engineering graduate passionate about user-friendly web app development. Diverse programming skills, eager to learn and collaborate with peers in an environment that fosters growth and innovation.

## EXPERIENCE

### Freelancer Web Developer

#### Khodari Showroom

July 2023 - Present, Ajman

- Developed "Khodari Used Cars Showroom Web App" for seamless car browsing and showroom interaction.
- Managed social media, boosting brand visibility and customer engagement.
- Enhanced admin panel for efficient inventory control and user management.

### Freelancer Web Developer

#### AL MANAL INFINITY REAL ESTATE

February 2022 - April 2022, Dubai

- Developed a captivating landing page for Falcon Island using HTML, CSS, JavaScript, Bootstrap, and jQuery.
- Achieved project completion within a one-month deadline, ensuring seamless responsiveness for enhanced user engagement.
- Executed effective digital marketing strategies to drive traffic and generate leads for Falcon Island.

## PROJECTS

### Khodari Used Cars Showroom

Khodari showrooms • July 2023 - Present

- I led the development of the Khodari Used Cars Showroom Web App, connecting users to our branches and diverse car inventory.
- With an intuitive interface, I integrated comprehensive showroom details like social media links and contact information. I also built an admin panel for streamlined content management.
- The responsive design ensures accessibility, enhancing the car browsing journey and showcasing our commitment to quality service and used cars.

### ASANES USED CARS SHOWROOM WEB

Graduation Project • February 2023 - May 2023

- Developed a smart web shop for used car dealerships, showcasing proficiency in designing and implementing admin and client panels.
- Utilized HTML, CSS, JavaScript, Bootstrap, jQuery, and libraries to create an impressive and feature-rich front-end for the web shop.
- Employed PHP, AJAX, and MySQL for seamless back-end operations, ensuring efficient data management for the used car showroom.
- Client panel demo: <http://asanes.epizy.com>.

### FALCON ISLAND LANDINGPAGE

Al Hamra Falcon Island • October 2021 - November 2021

- Developed a high-converting landing page using HTML, JavaScript, jQuery, Bootstrap, and CSS, achieving a 30% conversion rate.
- Improved SEO, A/B testing, and code optimization to drive 45% more organic traffic, enhancing user experience and website performance.
- Completed first professional project in a month, delivering responsive website with faster loading times and 35% lower bounce rates.
- Project Demo: <https://sunny-creponne-199927.netlify.app/>.

### SANE BOOK SHOP WEBSITE

First Year College Project • February 2020 - May 2020

- Created book shop website using HTML, CSS, and jQuery in 2 months as first web development project.
- Enhanced website design with cohesive colors, clean layouts, and intuitive navigation, increasing traffic by 20%.
- This initial project during my college years marked the beginning of my passion for the field of web development.
- Project Demo: <https://gallant-galileo-98febo.netlify.app/>.

## EDUCATION

### BACHELOR OF SCIENCE (HONS)

Minor in Computing • Teesside University • United Kingdom • 2023

### HIGHER NATIONAL DIPLOMA

Minor in Computing • NAL DIPLOMA Pearson BTEC • United Kingdom • 2022

## CERTIFICATIONS

---

## **Real-Life Graduation Project Completion**

Mohamed AL-Khodari used cars exhb

• 2023

## **Modern Web Designing**
